☒ *Reflective finish* ☐ *Standard finish*

This quote is subject to the following terms:

1. After 30 days the quote is subject to increases in market rates for materials.
2. Labor quote is an estimate for 5 hours of labor. Thereafter the rate is \$100/hr.

In previous lessons, you rewrote SenseML queries. Now write your own!

Challenges

1. Grab the quote document date.
Hint: Use `textAlignment`. See <https://docs.sensible.so/docs/label>.
2. Grab the grand total from the table.
3. Grab the customer's address. Hint: Use the `Address` type to filter box contents.
4. Grab whether the customer selected a reflective finish.
5. Grab the Terms paragraphs.
